

Lesson	Learning Focus	Assessment
1	To describe and explain some different forces	Self-assessment
2	To be able to accurately measure forces	
3	To investigate the effect of friction	Homework
4	To investigate the relationship between mass, weight and the stretching of a spring	Self-assessment
5	To describe the and explain the forces involved in floating and sinking	
6		WWW/EBI
7	To investigate the effect of gravity	Homework
8	To understand and apply the concept of work done	
9	To describe and explain what causes pressure and how it can be changed.	
10	To describe and explain what causes atmospheric pressure and how this can be used.	Peer assessment
11	To describe and explain what a moment is.	
12	To investigate the relationship between mass and volume	Homework
13		End of topic assessment
